

MD-710V

DATA SHEET

MD-710V | Dynamic Microphone

Inter-M MD-710V A professional dynamic vocal-instrumental microphone designed to work as part of sound amplification systems.

The device has a dynamic transducer, a cardioid polar pattern, a durable metal case with an XLR male connector, a sliding switch on the case, and a microphone cord (XLR male - XLR female, 5 m) included.

The microphone has high sensitivity and an exceptionally flat amplitude-frequency response.

The device version is manual.

SPECIFICATION :

Type :	Dynamic (Moving Coil)
Polar Pattern :	Super Cardioid
Frequency Response :	55Hz - 16kHz
Sensitivity :	-75dB ± 3dB
Output Impedance :	600Ω ± 30%(at 1kHz)
Dimensions (Ø(WxH)xD)mm :	250Ω ± 10g
